EXAMINER'S AMENDMENT

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/25/05 has been entered.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark F. Wachter on August 22, 2005.

The application has been amended as follows:

The Specification:

On page 1, line 5, after "priority" insert – under 35 USC 119(e) --.

The Claims:

In claim 1, line 16, delete the text beginning with "R..." and ending with "...-- Si(OR¹¹)₃;" in line 19.

In claim 1, line 19, delete the text beginning with ", n..." and ending with "...1 to 8 carbon atoms" in line 21.

Art Unit: 1751

In claim 11, line 1, delete "is" and insert – are --.

Cancel claims 5, 6, 9, 10, 19, 21, 24, and 29.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Note that, Applicant's amendment, Applicant's arguments, and the Examiner's Amendment are sufficient to place the instant claims in condition for allowance.

Of the references of record, the most pertinent is Herber et al (US 3,941,709). Herber et al teach functional fluid compositions comprising a major amount of a base stock material which is an ester or amide of an acid or phosphorus and an epoxide compound. See Abstract. However, Herber et al do not teach the use of the specific epoxide compound as recited by the instant claims.

None of the references of record, alone or in combination, teach or suggest a functional fluid composition containing a base stock comprising a phosphate ester, a specific epoxide compound, and the other requisite components of the composition in the specific proportions as recited by the instant claims. Accordingly, since the prior art fails to teach or suggest such a composition as recited by the instant claims, the instant claims are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
